Product Specification

Model	VB 4100S
Product size	D505xW390xH130mm
Main function	Stainless nozzle, posterior, feminine, enema, dry, heating se nozzle cleaning, damper, electronic leak break, water save,

		power saving
Rated Voltage		AC 220V, 50/6Hz
Rated Power Consumption		1680W or 1180W
Water supply system		Direct connection with tap water
Waterproof rating		1.0~7.5kgf/cm ² (It cannot be operated well at low water pressure)
Power Cord Length		1.5M
Wash Unit	Water Heating	Continuous / Instant
	Posterior Wash	Maximum 800cc
	Feminine Wash	Maximum 800cc
	Enema	Maximum 800cc
	Water Temperature	Room temp, 36°C, 38°C, 40°C (It would be different according to supplied water's)
	Water Tank	—
	Heater Capacity	1600W or 1100W
	Safety Device	Earth leakage breaker , Water level sensor
Heated Seat	Seat Temperature	Room temp, 36°C, 38°C, 40°C
	Heater Capacity	Maximum 55W
	Safety Device	Thermal cutoff, temperature sensor
Dry (Except VB2000G/B)	Hot Air Temperature	Room temp ~ Maximum 36°C, 38°C, 40°C
	Heater Capacity	Maximum 250W
	Safety Device	Thermal cutoff, Bimetal
Deodorization (Option)		Automatic deodorizer
Lighting		LED light
Inlet water Temperature		5°C ~ 35°C
Ambient Temperature		3°C ~ 35°C
Net weight (Gross weight)		3.8 kg (6.0kg)
